Subject: RE: Draft September 2015 BCT Minutes

Hi Katy,

The BCT discussion did not go through the details of the complaint calls so please revise the meeting summary based on the following information. The first called about hearing some industrial tenants at TI dumping building materials with asbestos from a warehouse renovation as regular garbage. I don't think he called TIDA. We requested TIDA to followup on this call. The second caller is a YBI resident who called USEPA about contamination at YBI and Nadia referred him to DTSC. Nathan and I left him voice messages twice and he did not return our call.

Thanks -- Medi

Hi there, I think some clarification might be needed for the second bullet in Section VII (copied below). Medi, can you confirm it was asbestos pipe and not some other material the caller was concerned with? Also, I thought Bob reported something different—that there was an incident in the past, and they were going to look into it again. I also understood it to be on TI not YBI. Finally, I believe the last sentence about the community member not returning follow up calls was in reference to a different caller concerned about environmental assessment at YBI, not the asbestos caller. This should be a separate third bullet. Hopefully Medi can offer better clarifications between the two issues!

VII. Open Forum for City / Developer / BCT

- A community member contacted EPA, DTSC, and TIDA about some concerns related to proper disposal of asbestos pipe on YBI. Mr. Beck has looked into the situation, which was about proper disposal of asbestos pipe on YBI, and did not find an issue. The community member has not returned follow-up calls from EPA or DTSC.
